

Safe and Secure Shopping

Is it safe to use my credit/debit card on MobiShop?

Your online transaction on MobiShop is secure with the highest levels of transaction security currently available on the Internet. MobiShop uses 256-bit encryption technology to protect your card information while securely transmitting it to the respective banks for payment processing.

All credit card and debit card payments on MobiShop are processed through secure and trusted payment gateways managed by leading banks. Banks now use the 3D Secure password service for online transactions, providing an additional layer of security through identity verification.

Does MobiShop store my credit/debit card

infomation? MobiShop stores the first 6 and last 4 digits of your card number in a secure and encrypted manner. The first 6 digits (also known as the Bank Identification Number) are used to identify the bank name and country where your card was issued. The first 6 and last 4 digits are together used for fraud detection and prevention purposes.
